

# **OneClick Line Instalation Instructions**

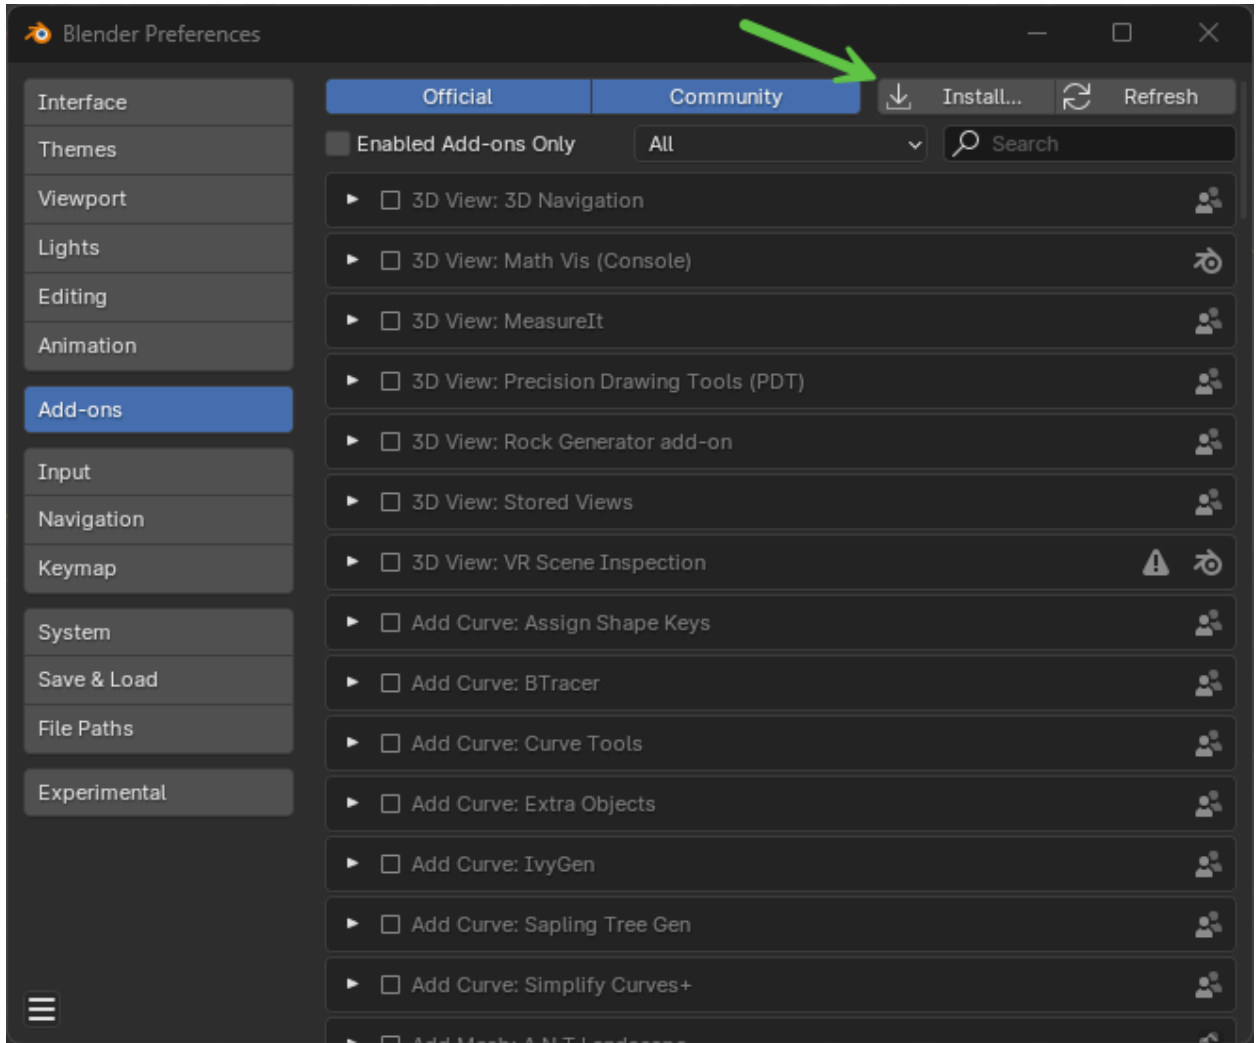

Made By: Dubz3DModels

Creation Date: 04/29/2024

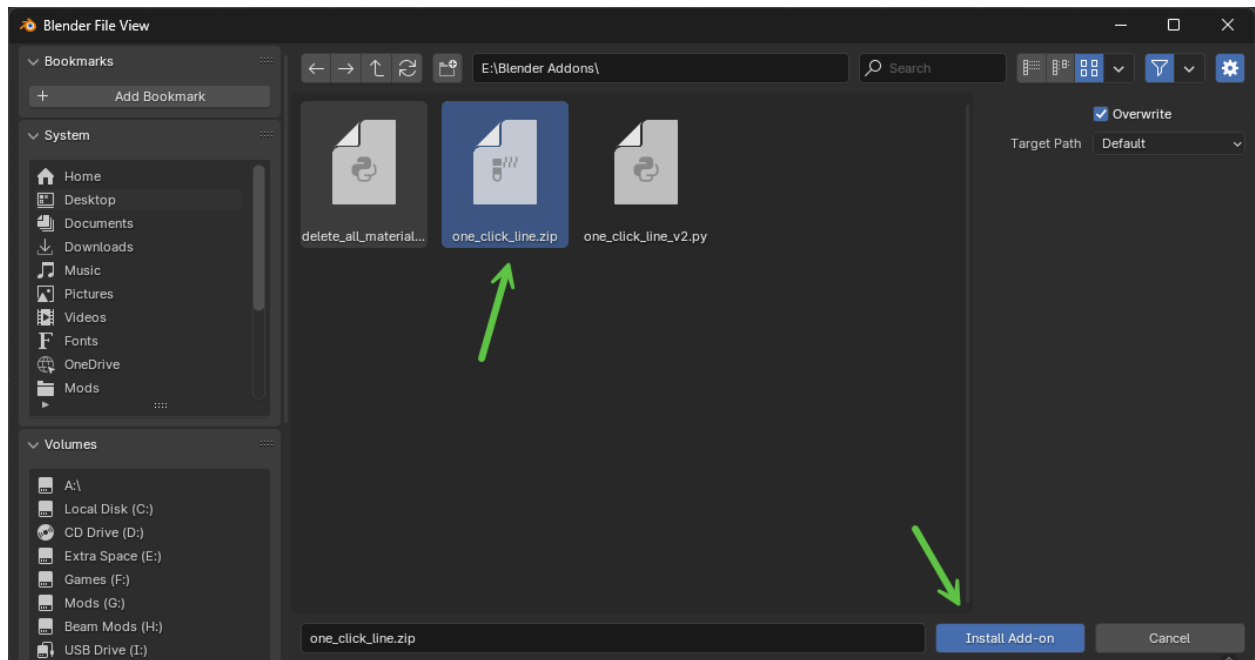

1. After downloading the plugin, open Blender to install.
2. Once Blender is open navigate to the preferences tab.

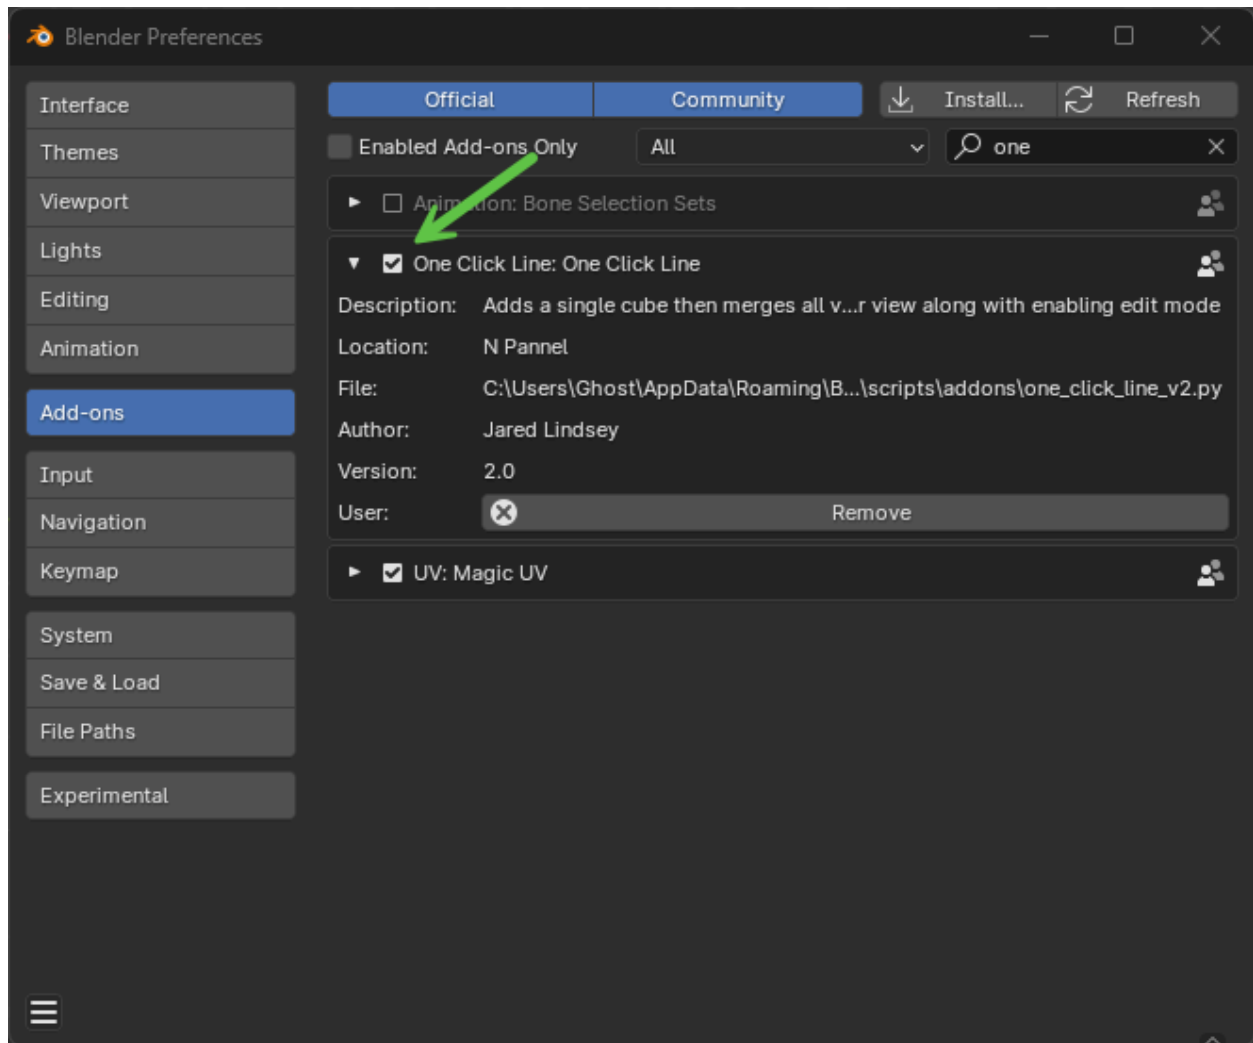

### 3. Next, Select Install

4. Navigate to where you downloaded the plugin and click on the zip file to install the addon.

5. Once loaded, enable the addon by checking off the OneClickLine plugin.

6. You can now access the plug by hitting N or toggling your Npanel in blender.
